

We are pleased to announce that Sidney Elementary will be partnering with the Sidney By The Sea Rotary Club and The Food Share Network of Victoria to offer fresh produce free of charge to all Sidney Elementary Families.

We will be offering fresh produce to our families on Tuesdays from 2:10-2:45pm. The Rotary Club Volunteers will set up a table outside at the undercover area at the north side of the school (next to the gaga ball courts)

COVID Health and Safety protocols will be in place. Volunteers will wear masks and will ask parents to line up physically distanced to get produce. Volunteers will bag the produce of your choice as you arrive at the table. The variety and type of produce will change each week and are subject to availability. Please note that we are unable to hand out produce to students, it must be picked up by an adult.

Thank you!
